

Front-End Developer

Location: Virtual/Remote office

Reports To: Director of Technology

Status: Part-time

Are you willing to work hard and help usher in the future of an organization? Do you have a passion for supporting military families? Do you want to be a part of a team that is revolutionizing an organization? Do you enjoy identifying opportunities to make an organization better? The **Front End Developer** is responsible for building and maintaining the BSF gamified virtual community with our website & applications. You should be able to translate our company and member needs into functional and appealing interactive applications.

If you are a qualified front-end developer with an emphasis on UX interested in creating a user-friendly environment by writing code and moving forward in your career, then this job is for you! We expect you to be a tech-savvy professional, who is curious about new digital technologies and aspires to combine usability with visual design. Ultimately, you should be able to create a functional and attractive digital environment for our company, ensuring a great user experience.

A day in the life:

- Use markup languages like CSS and HTML to create user-friendly web pages
- Maintain and update website content
- Optimize applications for maximum speed
- Leverage applications, such as Intercom, to improve UX
- Design mobile-optimized features
- Collaborate with back-end developer to improve functionality
- Work with BSF designers to ensure high quality graphic standards and brand consistency
- Get feedback from, and build solutions for, users, members, and staff
- Write functional requirement documents and guides
- Create quality wireframes, mockups, prototypes, and sitemaps when needed

- Support back-end developer with coding and troubleshooting
- Stay up-to-date on emerging technologies

To land this job:

- You have a BS degree in Computer Science or relevant field (preferred)
- You have proven work experience as a Front-end developer
- You have hands on experience with markup languages
- You have experience with JavaScript, CSS and jQuery
- You are familiar with browser testing and debugging
- You have experience with gamification or interactive applications
- You have an in-depth understanding of the entire web development process (design, development and deployment)
- You have an understanding of layout aesthetics
- You have knowledge of SEO principles and website analytics
- You are familiar with software like Adobe Suite and WordPress content management systems
- You have an ability to perform well in a fast-paced environment
- You are a self-starter and able to work in a remote location
- You have excellent analytical and multitasking skills
- Travel is required to attend meetings, trainings, events, etc. Limited out-of-town and overnight travel is required.
- You have the ability to work a flexible schedule, including some evenings and weekends as required by position responsibilities.
- You may have:
 - Familiarity with membership-driven organizations
 - Familiarity with the military community
 - Experience with Customer Relationship Management (CRM) systems; familiarity with Salesforce a plus

The cherry on top:

We offer

- Dynamic growing organization
- Flexible/remote work environment

- Flex Friday Schedule
- 403(b) with matching contribution
- PCS Leave for Active Duty Families
- Communications stipend
- Short Term Disability
- Paid Time Off
- Professional Development opportunities
- Ten paid holidays per year
