COVID-19 Vaccine Resource Guide for Military Families

The COVID-19 vaccine is our best shot at protecting our family, community, and country together. But some are wondering how and where to get the vaccine. Below are some helpful resources from our trusted Blue Star Partners to get you started.

I'm military-affiliated...

Who should I turn to for vaccine info?

**TRICARE:** Official COVID-19 vaccine resources and distribution phases at tricare.mil/covidvaccine

**DoD:** Official DoD information on COVID-19 response and vaccine availability at defense.gov

**CDC:** 24/7 COVID-19 guidance and resources at cdc.gov

**American Red Cross:** Military family COVID-19 specific resources and support at redcross.org/saf

Can I get the vaccine?

Tricare is distributing the vaccine through a series of phases. Find out which phase you belong to here.

How and where do I get the vaccine?

**TRICARE Network Pharmacies:** TRICARE beneficiaries should contact their local TRICARE network pharmacy for more information and to schedule a vaccine appointment. Find a TRICARE network pharmacy here.

**TRICARE Non-Network Pharmacies:** TRICARE beneficiaries can receive the COVID-19 vaccine at non-network pharmacies — at no charge — as supplies are distributed in their area. Currently, under the federal response, pharmacies are prohibited from balance billing patients for COVID-19 vaccines.

**U.S. Department of Veterans Affairs:** Veterans who are interested in receiving the COVID-19 vaccine can find support here.

#BSFBeatCOVID19

We're arming our military community — service members, families, veterans, leaders, organizations, and supporters — with knowledge to make informed decisions about the vaccine. We're doing this by removing barriers and improving access to the information needed to protect everyone against the virus. Join us at bluestarfam.org/beatcovid19, and follow along on social media with the hashtag #BSFBeatCOVID19 as we rally around this issue, together.
