

Sherwin Sheik is the Founder & CEO of CareLinx. Sherwin founded CareLinx over a decade ago to specifically solve many of the challenges his family endured while trying to arrange nursing and companion care for loved ones. CareLinx has been on a mission to leverage technology to dramatically improve the entire caregiving experience so patients can age at home safely with dignity and grace. Today, CareLinx is a leading nationwide in-home care platform with over 500,000 professional tech-enabled care providers that can be successfully dispatched to care for patients at any location. CareLinx has successfully developed and scaled in-home personal care programs for both health plan and provider sponsors that improved health outcomes while reducing cost of care for geriatric and high-risk patients with chronic conditions. Prior to founding CareLinx, Sherwin worked within the healthcare industry for over 10 years at large publicly traded Fortune 100 healthcare corporations, as well as a Healthcare Investor and Portfolio Manager for Hedge Funds, Private Equity Firms and Investment Banks.
