

Sesame Street: Science and Curiosity Playlist

Topic Page:

[Science](#): The *Science* topic page is the go-to spot for access to all of our multimedia resources, including videos, articles, printable activities, interactives, and bundled resource workshops.

Videos:

[Exploring Outdoors](#): Watch Elmo, Abby, and Louie explore differences between leaves at the park. Then think about things you see in everyday life that appear similar, but upon closer observation, are actually quite different.

[Reuse](#): Watch this video together, then go through your own recycling bins to create a piece of art. It could be a sculpture of a robot, a hat, or anything else you can imagine.

[Just Ask!](#): Learning anything starts by asking just one question! Listen to this song together, then ask, "What are some questions you have?"

Articles:

[Questions Spark Science](#): Big questions lead to big discoveries. Boost bonding and science learning by questioning together. Here are questions that can spark science discovery at home and on the go.

[Questions, Questions!](#): You can use children's natural curiosity as a springboard into learning-filled play! Consider these tips when your little ones have questions.

Printable:

[Saving Paper](#): Color Oscar and Slimey, then use the other side of this paper to keep drawing, write a letter and send it off, make a sign and post it, write a grocery list, or anything else you can think of!
